

August 18, 2022

TO WHOMEVER IT MAY CONCERN:

This is to certify that **Keshav Bagri**, who is pursuing his MS in Mechanical Engineering at the Ohio State University, has successfully completed his internship at Revolute Robotics, Inc.

During the time from March 15, 2022 to July 30, 2022, Keshav worked on tasks such as path planning for both ground and aerial movement, SLAM implementation, and assisting our CTO in building a simulation by integrating Airsim, ROS, and Px4. Keshav's skills as a self-directed developer, researcher, and leader made him a great help to our team and we wish him the best of luck in his future endeavors.

Revolute Robotics holds the Intellectual Property Rights for the work done. We declare that the report is authentic and has been verified by company leadership, and have ensured that no confidential information is mentioned in the report.

On behalf of Revolute Robotics:

A handwritten signature in black ink that reads "Collin Taylor". The signature is written in a cursive style with a large, stylized "T" at the end.

Collin Taylor
Chief Executive Officer
Revolute Robotics, Inc.
